Apology is ~~in~~ like a pebble

under the current of the rapids - not quite

the pills / rocks of hope or change or freedom

but like little bits of aspirin that can

never quite get big enough to grow up enough

to matter. So they collect and after the

other in ~~an~~ small pile, each one different

in ~~shape~~ + shape - quite beauty will do

you at ~~the~~ last don't get too close.

The waves distort their simplicity + make the

mountain seem bigger + prettier - self importance

the white sea spray over the top of the rocks -

the don't get too close their dots + shadows

meanings + will drag you down too - no
stay a top, slide over the smooth surface of
the ~~water~~ but your canoe takes
the ~~water~~ ~~the~~ ~~solid~~ + steep rocks - PENSACOLA 76
